COMPLIANCE ADVISORY

Notice of Adoption of District Rule 67.24 — Bakery Ovens

On June 7, 1994, the San Diego County Air Pollution Control Board adopted Rule 67.24. Rule 67.24 is a new rule designed to control volatile organic compound (VOC) emissions from bakery operations.

The new rule will require the following:

Control equipment installation	Installation of air pollution control equipment to reduce VOC emissions by at least 90 percent if the facility emits 25 or more tons of VOCs per year.
Operation and Maintenance Plan	An Operation and Maintenance Plan for air pollution control equipment.
Recordkeeping requirements	Recordkeeping to determine VOC emissions and key air pollution control system operating parameters.
Definition of test methods	Specific test methods for determining compliance.
12-month compliance schedule	Implementation of air pollution control equipment requirements by existing bakeries by June 7, 1995. New bakery ovens will be required to be in compliance at the time of startup.

A copy of Rule 67.24 is enclosed. For more information, please call the District's Compliance Division at (619) 694-3340.
